THIS IS OUR 113th YEAR . . .

Better Plants for New England

Adams Nursery

Growing Since 1849

Conveniently located directly back of our office where you will find a comprehensive assortment of "SHOW WINDOW QUALITY" plants on display.

We invite you to visit our Nursery-Mart where you can select your Evergreens, Rhododendrons, Asaleas, Shade, Flowering and Fruit Trees, Flowering Shrubs, Potted Roses, and Perennials.

In addition we have all the garden accessories, such as Fertilizers, Insecticides, Lime, Peat Moss, Grass Seed, Garden Tools, etc.

Plenty of parking space has been provided adjacent to the Mart.

The ADAMS NURSERY MART will be open April 1st and every week day during regular business hours. No business will be transacted on Sunday.

"BETTER PLANTS FOR NEW ENGLAND" is not a conceited statement. It is a slogan we adopted as a challenge to ourselves and an obligation to you. For over ONE HUNDRED YEARS we have been trying to make this slogan a reality.

We maintain a staff of competent landscape men, professionally trained and experienced to help home owners select the right plants for the proper locations. Whether you have a large estate or a cottage, we are thoroughly equipped to help you.

Perhaps You Would Like

A hedge to give you privacy, a plant barrier to keep out wind and noise, a foundation planting for year-round beauty, a Rose garden to bloom all Summer, a flowering shrub border to give color at various seasons, an outdoor living room or a complete plan for planning your home grounds, which can be accomplished on a budget plan.

The following three types of service are available:

- 1. Free Service** There is no charge if you bring a photograph or plot plan, showing the measurements of existing conditions, to our GARDEN CENTER. We will discuss your planting problems with you and make suggestions. While you are here you can see the plants recommended.
- 2. Service for a Nominal Fee** Should you desire the services of one of our landscape men at your home, there would be a **Service Charge of Five Dollars** payable at time of consultation. This would include their suggestions, and a rough sketch, showing the arrangement of the plants suggested. Telephone for an appointment.
- 3. Landscape Planting Plans** Should a complete detailed landscape plan be required we offer this service at a **minimum** charge of \$35.00, payable in advance with this fee scaled according to the size and complexity of the landscape problem.

Planting Service

We urge our customers to "DO IT YOURSELF" especially on small orders.

Planting can be done by our own landscape crews for a nominal fee, upon request.

Our SIX MONTHS' GUARANTEE is valid regardless of who plants.

PLANT AMERICA with shade trees. It is hard to picture this country without trees.

Trees do not happen over night. You must plan ahead to enjoy their shade on a hot Summer day.

By planting trees you can Control Your Private Climate, increase your comfort, and the valuation of your property.

Maple
Acer

The Maples are among our most ornamental and desirable trees for specimens and street planting. Practically all are relatively fast-growing and not particular as to soil requirements. They are hardy, healthy, and produce cool shade and brilliant Fall colors.

Blood-Leaf Japanese Maple

**"PLANT IT YOURSELF"
and Save Money**

Additional pride and satisfaction are gained when you do your own planting and gardening. If your plans are not too ambitious, planting can be a pleasure and a source of relaxation.

Planting requires no special skill and our SIX MONTHS' GUARANTEE is the same regardless of who plants.

The rising cost of labor has caused a definite trend to "DO IT YOURSELF". The following sketches demonstrate how easy it is.

HOW TO PLANT

Proper planting, pruning and watering are essential to the success of nursery stock. The ground should be plowed or spaded deeply. Holes should be large enough so the roots can be spread out without crowding. Soil should be packed firmly around roots so there are no air spaces and so roots are in tight contact with the soil. After planting, water thoroughly with hose twice a week until established.

CLIMATE CONTROL

Your home can be made cooler in the Summer and warmer in the Winter by planting trees and shrubs in the proper places. Trees which will shade your roof and house walls from Summer heat will reduce your house temperature by 10%.

In the Winter they will shield you from Winter winds and reduce your fuel bills. The evaporation of large quantities of water through the foliage produces a radiant cooling effect. Trees and shrubs are nature's air conditioners.

Our list of SHRUBS includes many that originate from the four corners of the world noted for their gorgeous blooms, bright berries and handsome foliage that in many instances turn to brilliant Autumn colors. We are continuously experimenting with new varieties to keep our collection up to date, retaining only the aristocrats of proven hardiness.

When ten or more plants of the same variety and size are purchased a 10% discount will be allowed

TRIMMING SERVICE

Many of the evergreens, especially *Taxus*, *Thuja*, *Juniper* and *Hemlock*, benefit by an annual shearing in late June, July or August. Moderate trimming each Summer makes for a bushy, compact plant that is less susceptible to sleet and snow damage.

Our men will be available for this service during the Summer or Winter months. Please phone for rates.

Some are evergreen like the Euonymus. Others produce beautiful flowers such as the Clematis, Honeysuckle and Wistaria. Should you want Fall color choose the Ivys and for colorful fruits the Bittersweet. They will transform bare walls and fences into beauty spots. For similar purposes may we suggest Climbing Roses which will be found on page 28.

When ten or more plants of the same variety and size are purchased a 10% discount will be allowed

SPRAYING SERVICE

HEALTHY EVERGREENS are assured when sprayed at the proper time. During late Winter, dormant spraying may be safely done up to March 15th. In June and July Evergreen spraying may again be necessary to combat Summer infestations. Our men and equipment are available at these times to render service. Please phone for rates. We are not equipped to spray fruit trees.

Fruit trees are just as decorative as any ornamental tree. Apple trees provide both fruits and shade as well as beautiful blooms. They have been inspected and certified by the "Massachusetts Trueness-To-Name Inspection Service".

When ten or more plants of the same variety and size are purchased a 10% discount will be allowed

HOLLAND BULBS

We have shipped to us direct from Holland a comprehensive assortment of Tulips, Narcissus, Hyacinths, Crocus, and miscellaneous bulbs. They leave Holland in late August and arrive at our nursery about Sept. 15th. We handle only the largest bulbs obtainable. Our prices will compare favorably and are not to be confused with smaller sized bulbs. **If you want to enjoy the Spring Glory of Holland Bulbs, you must plant in the Fall.**

TRIMMING SERVICE

Many of the evergreens, especially Taxus, Thuja, Juniper and Hemlock, benefit by an annual shearing in late June, July or August. Moderate trimming each Summer makes for a bushy, compact plant that is less susceptible to sleet and snow damage.

Our men will be available for this service during the Summer or Winter months. Please phone for rates.

SPRAYING SERVICE

HEALTHY EVERGREENS are assured when sprayed at the proper time. During late Winter, dormant spraying may be safely done up to March 15th.

In June and July Evergreen spraying may again be necessary to combat Summer infestations.

Our men and equipment are available at these times to render service. Please phone for rates.

We are not equipped to spray fruit trees.

LAWN GRASS SEED

Buying Lawn Grass Seed

Any good mixture of grasses suitable for making a lawn and developing a smooth texture, permanent turf must contain a large percentage of perennial grasses. These are the only grasses that are of permanent growth, remaining year after year, plants increasing in size and vigor and developing into a strong solid turf. These grasses are naturally of slower growth and more costly than those providing quick coverage but less durability.

It is a commonly recognized and admitted fact that the cheaper grass seed mixtures will show quicker and more uniform germination, developing a faster green coverage but in the end do not make a lawn of the desired appearance or permanency.

These cheaper mixtures, while they may have a place and serve a purpose, can not, because of price, contain a sufficient percentage of the best perennial grasses and the ultimate results from them are usually a disappointment.

After all the work of grading and preparing of the ground for a proper lawn you should use only a good grade and durable seed mixture from a reliable source of supply.

The following quantities will be practical on most lawn mixtures. For new lawns, use 1 lb. to 250 sq. ft., 4 lbs. to 1000 sq. ft. For replenishing old lawns we recommend about one-third to one-half this quantity of seed.

ANCO LAWN SEED

"ANCO" (Adams Nursery Co.) is a name we are proud of and is a mixture especially adapted to this area. This serviceable lawn grass is less expensive and produces a good lawn. All lawns at Adams Nursery were produced from this brand.

The analysis is as follows: 30% Kentucky Blue Grass, 27% Chewings Fescue, 25% Red Top, 15% Rye Grass, 3% White Clover.

1 lb. 95c, 2 lbs. \$1.90, 5 lbs. \$4.20, 10 lbs. \$8.00, 25 lbs. \$19.00, 50 lbs. \$37.00.

ADAMS-BRAINARD Lawn Seed Mixtures

WE BUY THE SEED AND MIX OUR OWN GRASS SEED MIXTURES

Adams-Brainard Rex Mixture

This is our very best mixture for general use and is actually a blend of a number of high grade grasses most suitable to withstand the close cutting, extremes of weather and other adverse conditions ordinary lawns have to endure. This mixture will positively, under favorable conditions produce a permanent, fine texture lawn. 1 lb. \$1.10, 2 lbs. 2.20, 5 lbs. \$5.50, 10 lbs. \$11.20, 25 lbs. \$27.50, 50 lbs. \$52.50.

Adams-Brainard Verigood Mixture

This is a mixture of good, serviceable lawn grasses, and while not quite equal in velvety texture to our Rex Mixture, is less expensive and answers well where a high quality, fine bladed grass is not really necessary. 1 lb. 85c, 2 lbs. \$1.70, 5 lbs. \$4.25, 10 lbs. \$8.30, 25 lbs. \$20.25, 50 lbs. \$39.50.

Adams-Brainard Shady Corner

This mixture is composed of dwarf growing, strong rooting grasses which thrive more or less in sheltered or shaded locations, and will make a quick showing though gradually build a strong green turf. 1 lb. 90c, 2 lbs. \$1.80, 5 lbs. \$4.50, 10 lbs. \$8.60, 25 lbs. \$21.00, 50 lbs. \$41.00

Quickgro Mixture

For fast germination and a quick coverage this mixture will answer well. Though made largely of rapid growing grasses it contains a fair amount of perennial varieties. 1 lb. 65c, 2 lbs. \$1.30, 5 lbs. \$3.25, 10 lbs. \$6.20, 25 lbs. \$15.00, 50 lbs. \$29.00.

Merion Bluegrass Mixture

100% perennial grasses. Contains Merion Blue Grass, Illahee Fescue and Colonial Bent Grass. Any given area requires only $\frac{1}{2}$ to $\frac{1}{3}$ the amount of seed as compared with a common Lawn Mixture. Recommended to be sown — 1 lb. to 600 - 750 square ft. $\frac{1}{2}$ lb. \$1.10, 1 lb. \$2.05, 5 lbs. or over \$1.95 per lb.

SEPARATE VARIETY GRASSES

Rye Grass, Perennial. 1 to 5 lbs. 34c per lb., 6 to 20 lbs. 32c per lb.

White Dutch Clover Seed. 1/2 lb. 85c, 1 lb. \$1.60.

TWO NEW AND VALUABLE LAWN GRASSES

MERION BLUE GRASS

Also called BLUE GRASS B27

As a Lawn Grass this is one of the most important introductions in a great many years. It is stated by the introducers that it has proven ability to stay green all summer, stand close mowing and is resistant to many plant diseases. In growth it is more stocky and spreading than common Kentucky Blue Grass. 1/2 lb. \$1.35, 1 lb. \$2.50, 5 lbs. at \$2.40 per lb.

PENNLAWN FESCUE

A new variety of Creeping Red Fescue producing a better turf than the present strain. It has greater tolerance of leaf spot disease, has more dense foliage, faster rate of spread by underground root stalk and better withstands close clipping; color is good throughout the entire season. 1 lb. 90c, 3 lbs. \$2.40, 5 lbs. \$3.50.

Gift Certificate

The Answer to Your Gift Problems

A plant or tree is always in good taste — always welcome — always suitable for any occasion — Birthdays, Easter, Christmas, House-warmings, Anniversaries or as a Memorial.

Living plants are the gifts that grow in size and value as the years go on. There is no need to ponder WHAT to select; the recipient has the fun of selecting just what he wants here at the nursery. OR, if you prefer, you may select the plant to be given and there need be no mention of a stipulated amount. The Gift Certificate is so worded that either the particular plant OR the amount given may be specified.

For a Gift Certificate, just SEND US:

1. The name and address of the person who is to receive the certificate.
2. YOUR name and address.
3. Your check or money order for the amount of the gift.

WE WILL:

1. Send the Gift Certificate to the recipient at once (or to you, the donor, if you prefer).
 2. Send the Gift Certificate so as to arrive on a certain date if you will tell us the date.
- There is no fuss and bother with the Gift Certificate and more and more people are using this intriguing way of remembering — and being remembered.

SOIL IMPROVERS AND CONDITIONERS

The following materials are included in the Fertilizer Section for convenience and of necessity because of the important part they perform in preparation of the soil.

Aluminum Sulphate

A soil acidifier for acid-loving plants — Azaleas, Rhododendrons, Gardenias, Laurel, Heath, Holly, Yew, Viburnum, Andromeda, Blueberry, Magnolia, Dogwood, Hemlock, Black Alder. Imparts blue coloring to Hydrangeas.

5 lbs. \$.90 10 lbs. \$1.60

INFORMATION FOR OUR CUSTOMERS

TERMS: All prices in this catalogue are CASH PRICES but for the convenience of our customers, we are glad to extend thirty-day terms to established accounts. Also to open new accounts, via references, if order amounts to \$10.00 or more. On first orders, for less than \$10.00, please send check or money order. Our guarantee is void on overdue accounts.

SHIPPING METHODS: Shipments will be forwarded as purchasers direct, but in the absence of instructions we will use our best judgment and forward plants by shortest and safest route

SHIPPING SEASON: Our shipping season usually begins early in April. Perennials and stock dug with a ball of earth can be moved anytime except during the winter months. Trees and dormant stock can be transplanted either in the Spring or after a killing frost in the Fall. We are not open for business on Sunday.

Guarantee

SIX MONTHS' GUARANTEE: We guarantee to furnish nursery stock in first class condition so that with proper after-care, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid for by the purchaser.

Should we not have the same plants in stock we reserve the right to give credit for the amount paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

Deliveries:

We can deliver without charge on such days as we have trucks in that particular section to the following counties in Massachusetts: Hampden, Hampshire, Franklin, Berkshire, and the western part of Worcester County. Also Hartford County, Connecticut. If a customer desires delivery outside of our regularly scheduled delivery, or a specific day or hour, there will be a minimum charge of 45 cents per mile, one way for this special service.

INFORMATION FOR OUR CUSTOMERS

TERMS: All prices in this catalogue are CASH PRICES but for the convenience of our customers, we are glad to extend thirty-day terms to established accounts. Also to open new accounts, via references, if order amounts to \$10.00 or more. On first orders, for less than \$10.00, please send check or money order. Our guarantee is void on overdue accounts.

SHIPPING METHODS: Shipments will be forwarded as purchasers direct, but in the absence of instructions we will use our best judgment and forward plants by shortest and safest route

SHIPPING SEASON: Our shipping season usually begins early in April. Perennials and stock dug with a ball of earth can be moved anytime except during the winter months. Trees and dormant stock can be transplanted either in the Spring or after a killing frost in the Fall. We are not open for business on Sunday.

Guarantee

SIX MONTHS' GUARANTEE: We guarantee to furnish nursery stock in first class condition so that with proper after-care, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid for by the purchaser.

Should we not have the same plants in stock we reserve the right to give credit for the amount paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

Deliveries:

We can deliver without charge on such days as we have trucks in that particular section to the following counties in Massachusetts: Hampden, Hampshire, Franklin, Berkshire, and the western part of Worcester County. Also Hartford County, Connecticut. If a customer desires delivery outside of our regularly scheduled delivery, or a specific day or hour, there will be a minimum charge of 45 cents per mile, one way for this special service.
